

Name: _____

Kinetic or Potential energy ?

Potential energy is stored energy and is waiting to work.

Kinetic energy is energy that is working.

- 1) When a dog is sleeping, it is _____ energy.
- 2) When a dog is running, it is _____ energy.
- 3) If the light is on, it is _____ energy.
- 4) If the light is off, it is _____ energy.
- 5) When the orange is in the tree, it is _____ energy.
- 6) When the orange is falling from the tree, it is _____ energy.
- 7) When the flash light is _____, it is potential energy.
- 8) When the flash light is _____, it is kinetic energy.
- 9) When the blender is _____, it is potential energy.
- 10) When the blender is _____, it is kinetic energy.

Name: _____

Kinetic or Potential energy ?

Potential energy is stored energy and is waiting to work.

Kinetic energy is energy that is working.

- 1) When a boy is sitting, it is _____ energy.
- 2) When a boy is jumping, it is _____ energy.
- 3) If the giant wheel is still, it is _____ energy.
- 4) If the giant wheel is moving, it is _____ energy.
- 5) When the bird is sitting on the tree, it is _____ energy.
- 6) When the bird is flying, it is _____ energy.
- 7) If the fan switch is _____, it is potential energy.
- 8) If the fan switch is _____, it is kinetic energy.
- 9) When the car is _____, it is potential energy.
- 10) When the car is _____, it is kinetic energy.

Name: _____

Kinetic or Potential energy ?

Potential energy is stored energy and is waiting to work.

Kinetic energy is energy that is working.

- 1) When a train is still, it is _____ energy.
- 2) When a train is running, it is _____ energy.
- 3) If the computer is on, it is _____ energy.
- 4) If the computer is off, it is _____ energy.
- 5) When the pen is on the table, it is _____ energy.
- 6) When the pen is falling from the table, it is _____ energy.
- 7) When the girl is _____, it is potential energy.
- 8) When the girl is _____, it is kinetic energy.
- 9) When the TV is _____, it is potential energy.
- 10) When the TV is _____, it is kinetic energy.
