

Reading comprehension for Grade 3 or 4

Don't Put All Your Eggs in One Basket.

It is always a joy to go to the beach and swim in cool waters. That is, unless you are swimming in the ocean! There may be some sharks around and they may want to eat you. When that happens it can turn into a big problem for humans and sharks alike. The water in the ocean is very deep and dark; many things live in it and we cannot see them all.

1. What is referred to as joy by the author?
2. Which is the riskiest place to swim? Why?
3. Does the author care about sharks too?
4. Why can't we see things deep in the ocean?

The Burj Khalifa is the tallest building in the world. It stands 828 meters tall and took 5 years to be completed. The Burj Khalifa is not only an architectural wonder, but is also a symbol of Dubai's economic success.

If you ever visit Dubai, make sure that you see this amazing structure for yourself!

I was lucky enough to get invited by my friend to go on a tour with him around the city. He told me about how he got his invitation from one of his friends who works at the Burj Khalifa.

1. Where is Burj Khalifa situated?
2. How Burj Khalifa portrays Dubai to the world?
3. Write 3 important points about the building.
4. Why does the author consider himself lucky?

There are many different types of fishing. Fishing can be done at the shoreline, in freshwater rivers, and in salt water bays. Popular types of fishing are surf casting, fly-fishing, and baitcasting. Here are some other types of fishing

you may not know about: Casting nets, also called throw nets, are used for fishing. They consist of a circular net with small weights arranged around its edge.

1. What does the paragraph talk about?
2. Name any three types of fishing.
3. Write the names of two popular fishing methods.
4. Write about Casting nets.

In the year 105 AD China invented paper. Although there were many discoveries of similar materials before, but it most likely was a man named Ts'ai Lun who introduced the material to the Chinese people. The invention of paper is one of those things that you can't really put your finger on when someone tells you about it. It's not like they say "Hey! I just discovered fire!" or something equally as important and life changing. But the fact remains, paper has changed our lives in ways we couldn't have imagined even a few decades ago.

1. Which country invented the paper?
2. Who invented the paper?
3. Why is the invention of paper is important?
4. Was it easy to invent paper?
5. Write about few uses of papers?
