

Helping and Volunteering

Grade 2

I am always ready to help others. Helping others has always been something I enjoy doing. It makes me feel good. Whenever I see a person's smile after getting my support, it makes me happy.

I have a lot of opportunities to help others. I have shared my knowledge at school. I have volunteered at community centers.

My willingness to help is always open. I'm always willing to help, whether it's a friend who wants to chat or a stranger who needs directions.
