

Molly learns piano

Hi, I am Molly's class teacher. Molly is a grade 2 student who is learning to play the piano. She has been taking lessons for a few months and is progressing well. Recently, her teacher asked her to sight-read a simple piece of music. Molly was able to do it with only a few mistakes.

This shows that Molly is progressing well in her piano playing. She can sight-read simple pieces of music, which shows that she is understanding the notes and rhythms. Keep up the good work, Molly! You will be playing beautiful piano in no time!

1. Who is talking about Molly?
2. What does Molly do?
3. What did her teacher ask to do?
4. How does the class teacher know the progress of molly?
5. How did Molly perform in sight reading?
