

# Place Value Worksheets For Grade 1

## Place value worksheets: Identification of tens & ones

Q. Fill in the blanks by identifying tens and ones for the given number on right side

$$\square \text{ Tens and } \square \text{ ones} = 77$$

$$\square \text{ Tens and } \square \text{ ones} = 25$$

$$\square \text{ Tens and } \square \text{ ones} = 15$$

$$\square \text{ Tens and } \square \text{ ones} = 30$$

$$\square \text{ Tens and } \square \text{ ones} = 11$$

$$\square \text{ Tens and } \square \text{ ones} = 12$$

$$\square \text{ Tens and } \square \text{ ones} = 32$$

$$\square \text{ Tens and } \square \text{ ones} = 67$$

$$\square \text{ Tens and } \square \text{ ones} = 20$$

$$\square \text{ Tens and } \square \text{ ones} = 80$$

## Place value worksheets: Identification of tens & ones

Q. Fill in the blanks by identifying tens and ones for the given number on right side

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{11}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{23}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{43}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{80}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{12}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{51}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{30}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{83}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{42}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{90}$$

## Place value worksheets: Identification of tens & ones

Q. Fill in the blanks by identifying tens and ones for the given number on right side

$$\square \text{ Tens and } \square \text{ ones} = 32$$

$$\square \text{ Tens and } \square \text{ ones} = 92$$

$$\square \text{ Tens and } \square \text{ ones} = 26$$

$$\square \text{ Tens and } \square \text{ ones} = 33$$

$$\square \text{ Tens and } \square \text{ ones} = 55$$

$$\square \text{ Tens and } \square \text{ ones} = 49$$

$$\square \text{ Tens and } \square \text{ ones} = 32$$

$$\square \text{ Tens and } \square \text{ ones} = 13$$

$$\square \text{ Tens and } \square \text{ ones} = 16$$

$$\square \text{ Tens and } \square \text{ ones} = 89$$

## Place value worksheets: Identification of tens & ones

Q. Fill in the blanks by identifying tens and ones for the given number on right side

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{18}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{79}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{20}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{32}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{16}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{40}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{57}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{61}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{36}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{50}$$

## Place value worksheets: Identification of tens & ones

Q. Fill in the blanks by identifying tens and ones for the given number on right side

$$\square \text{ Tens and } \square \text{ ones} = 33$$

$$\square \text{ Tens and } \square \text{ ones} = 27$$

$$\square \text{ Tens and } \square \text{ ones} = 31$$

$$\square \text{ Tens and } \square \text{ ones} = 74$$

$$\square \text{ Tens and } \square \text{ ones} = 96$$

$$\square \text{ Tens and } \square \text{ ones} = 44$$

$$\square \text{ Tens and } \square \text{ ones} = 49$$

$$\square \text{ Tens and } \square \text{ ones} = 26$$

$$\square \text{ Tens and } \square \text{ ones} = 38$$

$$\square \text{ Tens and } \square \text{ ones} = 20$$

## Place value worksheets: Identification of tens & ones

Q. Fill in the blanks by identifying tens and ones for the given number on right side

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{94}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{90}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{17}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{89}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{27}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{40}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{92}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{65}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{77}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{69}$$

## Place value worksheets: Identification of tens & ones

Q. Fill in the blanks by identifying tens and ones for the given number on right side

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{98}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{61}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{96}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{50}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{45}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{45}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{33}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{36}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{96}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{46}$$

## Place value worksheets: Identification of tens & ones

Q. Fill in the blanks by identifying tens and ones for the given number on right side

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{64}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{39}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{80}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{57}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{10}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{41}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{74}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{11}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{14}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{45}$$

## Place value worksheets: Identification of tens & ones

Q. Fill in the blanks by identifying tens and ones for the given number on right side

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{81}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{11}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{62}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{98}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{16}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{98}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{12}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{11}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{94}$$

$$\square \text{ Tens and } \square \text{ ones} = \mathbf{71}$$
