

Printable Rulers

Print at **100%** or **Actual Size**. Do not use *Fit to page*, or the ruler will come out short.

CHECK BEFORE YOU CUT

 This bar is exactly **10 cm**

 This bar is exactly **4 inches**

Measure a bar against the ruler you just cut out. If it does not match, the page was resized when it printed. Print again with scaling set to **100%** or **Actual Size** — never *Fit to page*.
