June or May **May**

Write Today's Date

Answers depend on the day the sheet is used, so this page is a guide for the teacher rather than a fixed key.

In words: the month, then the day, then the year — *March 4, 2026*.

In numbers: month / day / year — *3/4/2026*. Note the month comes first in the United States.

The month after the current one. December is followed by January.

Any month; check the spelling and the capital letter.

Count on from the current month to December.
